

- 02 September 2024**
Zoom
Maxim Pimkin, Boston Children's Hospital, Boston, U.S.A.
Gene-regulatory networks in leukemia maintenance and immune escape
- 04 September 2024**
Ee-1318
Anna Randi, Imperial College London, London, U.K.
VWF regulation of angiogenesis and vascular integrity
- 23 September 2024**
Zoom
Alexander Bick, Vanderbilt University, Nashville, U.S.A.
Clonal hematopoiesis: causes, consequences and management
- 07 October 2024**
Zoom
Kellie Machlus, Boston Children's Hospital, Boston, U.S.A.
Unraveling roles for megakaryocytes beyond platelet production through novel model systems
- 14 October 2024**
Ee-1318
Leila Akkari, Netherlands Cancer Institute, Amsterdam, The Netherlands
Dissecting and rewiring immune cell heterogeneity in the cancer ecosystem
- 21 October 2024**
Zoom
Jonas Schluter, NYU Langone Health, New York City, U.S.A.
The microbiome as a target in cancer immunotherapy
- 23 October 2024**
Ee-1318
John Crispino, St. Jude Children's Hospital, Memphis, U.S.A.
The role of CMGC kinases in acute leukemia
- 04 November 2024**
Zoom
Job Dekker, University of Massachusetts Chan Medical School, Howard Hughes Medical Institute, Worcester, U.S.A.
Mechanisms of chromosome folding
- 18 November 2024**
Zoom
Nizar Bahlis, University of Calgary, Calgary, Canada
Resistance to T cell engagers in multiple myeloma: what have we learned?
- 25 November 2024**
Ee-1318
Jacco van Rheenen, Netherlands Cancer Institute/ OncoCode Institute, Amsterdam/ Utrecht, The Netherlands
Filming the fate of cells carrying mutations in cancer driver genes
- 02 December 2024**
Zoom
Elsa Bernard, Gustave Roussy, Villejuif, France
Clonal hematopoiesis in cancer

- 16 December 2024**
Ee-1318 Stein Aerts, VIB.AI & KU Leuven, Leuven, Belgium
Modelling genome regulation
- 13 January 2025**
Ee-1318 Maartje van den Biggelaar, Sanquin, Amsterdam, The Netherlands
Multi-proteomics in hemostasis
- 03 February 2025**
Ee-1318 Bethan Psaila, University of Oxford, Oxford, U.K.
Interrogating niche influences on malignant haematopoiesis
- 17 February 2025**
Ee-1318 Felipe Prosp er, Clinica Universidad de Navarra, Pamplona, Spain
The role of the non-immune microenvironment in aging and hematological malignancies
- 10 March 2025**
Ee-1318 Miriam Erlacher, University Hospital Ulm, Ulm, Germany
Apoptosis in bone marrow failure and leukemia: a double-edged sword
- 24 March 2025**
Ee-1318 Cyril Broccardo, CRCT-INSERM, Toulouse, France
Germline mutation in GATA2 induces hyporesponsiveness and exhaustion in hematopoietic stem cells
- 14 April 2025**
Ee-1318 Marella de Bruijn, University of Oxford, Oxford, U.K.
Development of the hematopoietic system
- 12 May 2025**
Ee-1318 KJ Patel, University of Oxford, Oxford, U.K.
Formaldehyde induced clonal haematopoiesis – when and where?
- 26 May 2025**
Ee-1318 Niels Weinhold, University Hospital Heidelberg, Heidelberg, Germany
The spatio-temporal evolution of multiple myeloma
- 23 June 2025**
Ee-1318 Kristina Kirschner, Mayo Clinic, Rochester, U.S.A.
Ageing related changes in the hematopoietic compartment
